

Board Of Education Approves Suit To Recover Parking Fine Funds

By HARRIET ASHLEY
Star Staff Writer

The Board of Education Tuesday authorized its attorney to sue the City of Lincoln for the recovery of parking violation fines.

Board member Mrs. Roscoe Hill pointed out that the statement was broad enough to cover both retroactive fees and the new city ordinance which provides that the schools get five cents of each dollar collected instead of the previous 50 cents, the major portion of the amount now being designated by the city as collection costs.

"We are sorry it arose," Mrs.

Hill said, "but there would be a reasonable element of doubt" if the board did not sue.

Costs Minor

She said that the court costs would be minor because both the city and school board have their own attorneys.

"This is no reflection on the City Council," she said, "and I believe this is the fairest way possible."

The board motion said that "William Hecht, attorney for the School District, hereby is authorized and directed to institute and appropriate action in the District Court of Lancaster County for and on behalf of the school district and

against the city of Lincoln for the determination of the amount, if any, due from said city to the school district for parking violation penalties collected by said city and not remitted to the school district as provided by law, and for the recovery of such amount as may be determined to be due."

School Superintendent Steven Watkins said, "This is, at best, a difficult position for the members of the Board of Education, but it is thought that the longer the present situation exists, the greater the confusion will become on the part of citizens and taxpayers in the community."

He said that if the present situation continued it might "create the development of bad feelings and misunderstandings" among Lincolinites.

The action is the result of a state Supreme Court decision that all money from parking meter violations fines should go to the schools.

4 Property Tracts Return To Dist. 76

Four pieces of property taken in by the Lincoln School District along with the Penitentiary area were returned to School District 76 by Board of Education action.

Dr. Steven Watkins, superintendent of schools, said that it was not the intention of the board to take in the four pieces and it had not been the intention of the people in the area to become part of the Lincoln School District.

The owners had signed the petition putting them in the Lincoln District, however, he said.

He explained that the area was apparently included to give the Lincoln District an even boundary.

Nothing Lost

He said the Lincoln School District would not lose anything by returning the area to District 76 because the Lincoln District would receive tuition for the three high school students in the area attending Lincoln schools.

School board attorney Willis

Hecht said that the penitentiary land had been annexed so that prison officials' children could attend the Lincoln schools without paying tuition.

The annexed lots are back in School District 76, at least for now, but Hecht said that District 76 would probably become part of the Lincoln district in the future.

CITY SCHOOLS GET RASH OF RESIGNATIONS

"A veritable rash of resignations" hit the Lincoln School District this week, according to Dr. Steven Watkins, superintendent of schools, and the Board of Education approved 20 at its meeting.

They included Richard E. Banister, principal of Garfield, Lakeview and Willard Schools, who has accepted a position in Sioux City, Ia., and Frances Bleick, coordinator of elementary and girls' secondary education.

Mrs. Esther Montgomery, teacher at Lincoln High School, was given a leave of absence to teach English on television through the University of Nebraska Extension Division.

Her work will be part of a research and experimental program in teaching by television financed by the Fund for the Advancement of Education.

purposes until June 30, 1958, at which time the new church building is expected to be near completion.

Due to a delay in construction, St. Andrew's Lutheran Church requested continued use of Bethany School. The board approved use of the school through Sept. 8.

It was recommended that the church be asked to consider the use of Meadow Lane School rather than Bethany after that date for church services and a proposed conference which would be Sept. 29 through Oct. 4.

Desks Loaned

The Board of Education has approved the loan of 18 desks and chairs and other classroom supplies for use by the educational psychology department of the University of Nebraska during its summer exceptional children's program.

Survey Results Due

The annual survey of teachers' salaries paid in all cities in the U. S. within the population range of 75,000 to 125,000 will be presented at the next Board of Education meeting.

Cook Bid Low

The Board of Education approved the low bid of the George Cook Construction Co. for remodeling the Hartley School addition. The bid was \$39,874.

\$4,500 In Emergency Funds Is Allowed For Sheriff's Office

Emergency appropriations totaling \$4,500 for the Lancaster County sheriff's office and jail budgets for the year ending June 30 were approved Tuesday by the County Commissioners.

The \$31,284 jail budget received an additional \$3,000 and the sheriff's office budget of \$76,792 was boosted by \$1,500.

Sheriff Merle Karnopp explained an anticipated prisoner load—expected to hit 10,110 prisoners this year as compared with 9,384 prisoner-days last year—caused the budget deficit.

The deficit items were \$2,192.50 for prisoners, \$364 for the safekeeping of prisoners at the State Penitentiary; \$273 for jail material

fees, and \$170 for supplies, according to Karnopp.

Didn't Expect So Many

The sheriff told the board that "I just didn't think there would be that many prisoners again this year."

To a board question, Karnopp attributed the increase to the "growth of the community and the Lincoln Air Force Base."

"If it were not for the Air Base, the prisoner load would probably be down," he said.

Up 8 Per Cent

Prisoner-days for May totaled 641 and if projected for June, the 1956-57 fiscal year increase would be 726 more days than last year or roughly an eight per cent increase.

The \$1,500 appropriation for the office budget was due to the purchase of a new patrol car during the year that was not anticipated in the budget.

A new patrol car was not budgeted because "I thought the (old) car would last one more year," Karnopp said. It also cost \$482 to transfer equipment from the old car to the new car, the sheriff said.

The additional money was appropriated from the county general fund.

Dr. Underwood Upped To \$5,500 As Co-Ordinator

A salary increase for Dr. George R. Underwood as county medical coordinator at \$5,500 a year effective Sept. 1 was approved Tuesday by the Lancaster County Board.

Dr. Underwood, who presently draws \$4,800 annual in the post, was recently named medical director of the Lincoln-Lancaster County Health Department at \$10,000 a year. He expects to assume his duties Sept. 1 as medical director.

Board Member Russell Brehm termed the city and county "very fortunate" in obtaining the services of the Lincoln physician and said that Dr. Underwood "will save the taxpayers money in the dual job."

Daniel K. Dotson, Roberts Engineer, Dies At Age Of 40

Daniel Keating Dotson, 40, of 600 Lyncrest Dr., an engineer with the Roberts Construction Co., died Tuesday.

Mr. Dotson had lived in Lincoln one year, coming here from Salt Lake City, Utah, his birthplace. He had been a Roberts Construction Company employee since that time.

He was a member of Calvary Lutheran Church and the Civil Engineering Society.

Surviving are his wife, Eileen; sons, Daniel Keating Jr. and Jack, both at home; daughter, Linda, also at home; father, John W. of Providence, Utah; brother, Edwin J. of Las Vegas, Nev.; sisters, Mrs. Joan Hayes, Mrs. Gerald Crowe, and Mrs. James Johnson, all of Las Vegas.

Garza's Body Found In Lake

SCOTTSBLUFF, Neb. (AP)—The body of Fidencio Garza, 27, was found Tuesday in Lake Minatare about 30 feet from the spot where he and his daughter, Sylvia, slipped into a deep channel and were drowned Sunday afternoon.

Minatare firemen found the body after a three day search. Sylvia's body still is missing.

Garza is survived by his wife and four other children.

Claim Best

LONDON (AP)—The Russians claimed to have the best and biggest stereoscopic movie screen in the world. They call it cinepanorama.

Prof. Goldovsky told Moscow radio in a broadcast interview: "The Americans have been working in this field for 15 years, the U.S.S.R. only just over one year." The Soviet screen is 90x36 feet.

Chicago Firm Leases Gateway Shopping Center On East O; Building Cost May Be \$4,500,000

George B. Cook, executive vice president of Bankers Life Insurance Co. of Nebraska, announced an agreement has been reached for lease of the Gateway Shopping Center at Cotner and O to Draper and Kramer Incorporated of Chicago, Ill.

The center will be located north of O between 60th and 63rd, northeast of the new Bankers Life home office building now under construction at Cotner and O.

Construction of the center is scheduled to begin in the spring of 1958, according to Maurice A. Pollak, executive vice president of Draper and Kramer. Completion is planned for the summer of 1959, he said.

No estimate of cost was given but Robert H. Pease, vice president of Draper and Kramer, said such centers cost from between \$10 and \$20 a square foot. Buildings at the Gateway center will cover nearly 225,000 square feet, he said.

At the minimum figure, the center would thus cost \$2,250,000 and at the maximum would cost \$4,500,000.

The center will be constructed, leased and operated by Draper and Kramer. Bankers Life will finance the building and own the buildings and land when the center is completed.

According to Pease, the Lincoln center, in size, will be among the top 50 or 60 such operations among those all across the country.

Draper and Kramer has offices in Chicago, Minneapolis and St. Louis and is considered one of the largest, if not the largest, operator of shopping centers in the United States.

Among their interests is the Old Orchard center in Chicago, one of the most extensive centers in the country. They operate centers in Minneapolis, Milwaukee and

Madison, Wis., and other midwestern cities as well as in Florida.

Pease said there was no question in his firm's mind that the Lincoln project would now be carried to a successful conclusion. No tenants for the center have yet been signed, he said, but this cannot be done until final building plans are available.

The Gateway center will contain approximately 25 separate stores, a majority of which will probably be firms now operating in Lincoln, Pease said. These stores will be located around a landscaped mall with access from both upper and lower parking levels.

The entire area of the center will cover about 30 acres. Access to Gateway will be provided from O on the south and from Cotner Blvd. on the north by way of R and 60th.

Architects for the center are Lohr, Schlossmann and Bennett of Chicago. Construction contracts will be let through competitive bidding.

The center, Pease said, will contain two department stores, specialty shops, drug store, super market, personal service shops and professional services. Parking for some 3,000 cars will be provided.

The center will employ from 700 to 800 full time people, Pease said, as well as part time people during certain times. The entire center will be air conditioned.

A planned restaurant will feature outdoor eating.

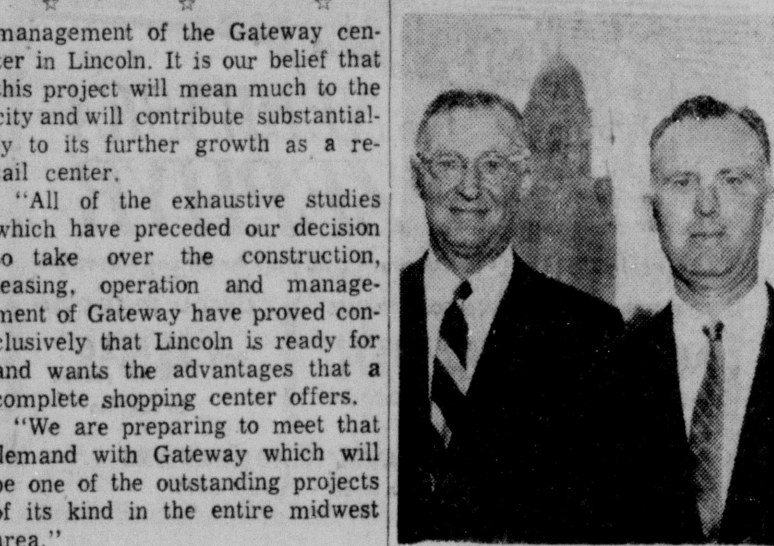

"It is the purpose of this center," Pease said, "to bring in additional retail business, not just carve up present business. It is anticipated to draw for the center from an area 50 to 75 miles around Lincoln."

"We are enthusiastic, Pollak said, "about the development and

New Lincoln Shopping Center Plans Firmed

This architect's drawing shows the Gateway shopping center as visualized in a view looking north from the southside of O (in the foreground). Entrance from O is at the extreme right showing access to lower level parking area (at left). Access streets from Cotner and 60th, are shown at the extreme upper left. Gateway will be built around a landscaped mall with marquees providing all-weather protection to all sidewalk areas in front of and between all stores. The center will be made up of approximately 25 stores ranging in size from department store to specialty and personal service shops. There will also be offices for professional services. Overall, buildings and adjacent grounds. Gateway will cover approximately 1,300,000 square feet.

Executives of the Chicago firm in Lincoln for lease negotiations are Maurice Pollak, executive vice president, (left), and Robert Pease, vice president, both of Draper and Kramer, Inc.

Answer Asks Dismissal Of Suit Seeking Accounting Of Firm's Funds

Mrs. Ada S. Westover of 1900 Ryons has filed an answer in Lancaster District Court asking dismissal of a suit seeking an accounting of Buckwalter-Stidworthy Company funds and conveyance of stock.

The action was filed in May by Mrs. Westover's two sisters, Mrs. Margaret S. Coryell of 2801 Van Dorn and Mrs. Helen S. Kerr of Louisville, Ky.

In the defense answer, Mrs. Westover admits absolute ownership of 520 stock shares.

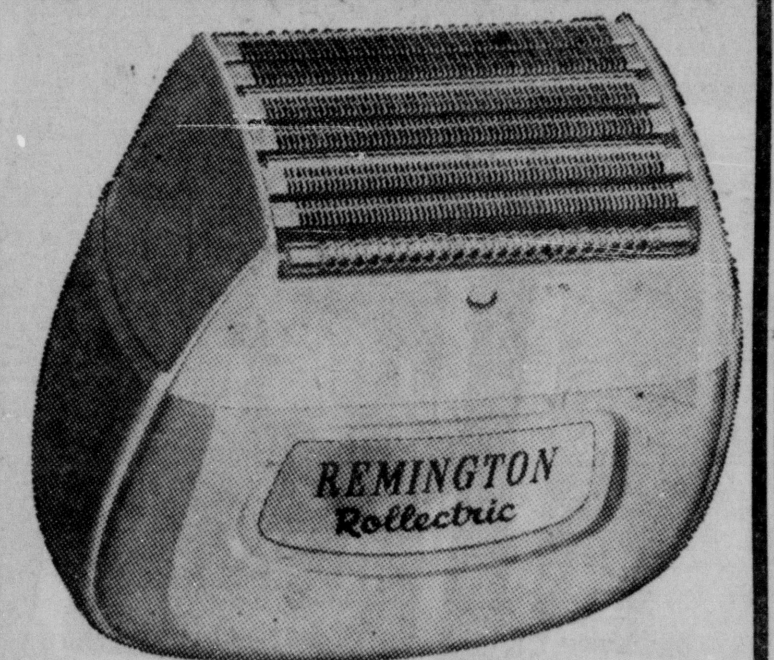

Her answer admits she did not consult with her plaintiff sisters in the stock purchase, but alleges that prior to July 29, 1950, that Mrs. Coryell stated to the defendant that she had no objection to the defendant purchasing said stock.

Plaintiffs had alleged the 500 shares purchased from the Buckwalter estate were purchased with company funds or pledged assets and should be conveyed to the estate of Mrs. Alice Stidworthy, their late mother.

Mrs. Westover's answer makes a general denial to these allegations and asks dismissal of the suit.

Russ Refugee Appeals More Effective

NEW YORK (INS) — A Senate sub-committee was told Tuesday that "come-home" appeals to Soviet refugees are "increasing in number and in effectiveness."

The warning about a new type of defection campaign using letters from relatives in the Soviet Union was made by Roland Elliott, immigration director of the Church World Service.

Elliott was the first witness before the Senate Internal Security subcommittee which opened public hearings in New York to determine the extent of Soviet diplomatic pressure in nine new defection cases.

The welfare official told the committee, headed by Sen. Roman Hruska (R-Nebr.):

Attorney For Mrs. Warren Submits Bill

William L. Walker, court-appointed defense attorney for Mrs. Helen F. Warren, has filed application in Lancaster District Court for fees and expenses.

The application values the legal services in the case from \$5,000 to \$6,000 in addition to expenses, costs and disbursement.

Walker defended Mrs. Warren in a two-week jury trial for first-degree murder in the Jan. 26 sash-weight slaying of her husband, Maurice. The jury returned a verdict of manslaughter and the defendant was sentenced to 10 years.

The application states that \$1,521.48 has been paid or absorbed in office expense for telephone calls, traveling expenses in witness interviews, certified copies of court records, mileage and living expenses for 12 South Dakota witnesses, and for services of L. E. Schreyer, South Dakota attorney, in securing deposition of a defense witness and witness process.

The application itemizes \$532.27 in fees and expenses of two psychiatrists and a psychologist retained by the defense.

The application was filed with Judge Harry Spencer for determination of allowances.

'FANTASY WORLD' OF SEX KILLER MAKES HIM DIFFICULT TO CATCH

The world of fantasy in which the sex murderer lives makes him one of the most difficult criminals to apprehend, Nebraska law enforcement officers were told Tuesday evening.

Dr. James M. Reinhardt, professor of criminology at the University of Nebraska, explained that the lack of "social linkage" of the sex murderer to the rest of the world makes him different from all other types of criminals.

Most criminals, he pointed out, are "proud" of the way they operate and usually seek to benefit from their crimes.

Common Sense Rules

"It is this basic social 'linkage' that makes it possible to apply the rules of common sense and experience to criminal investigation," Reinhardt said.

Reinhardt, whose topic was "Some Special Problems of Investigation of Sex Crimes," went on to point out that such investigations often must center on the suspect's background history, rather than his present.

Earlier the Law Enforcement Clinic heard a discussion of differentiating between types of criminals and adapting interrogation techniques to fit the individual type.

Alan Canty, executive director of the Detroit Psychopathic Clinic, said various emotional appeals and sympathetic approaches have been developed which are effective with youthful offenders.

Canty, whose topic was "Criminal Interrogation," explained that the interrogation of more hardened criminals requires the use of different techniques than those used for first offenders.

Questioning Methods

"During the past 27 years in examining criminals in the Psychopathic Clinic, we have developed methods of obtaining information from reluctant subjects," he said.

"The student will be given information in how to size up the criminal offender so that he may choose the interrogation method that should prove most effective," Canty explained.

The Law Enforcement Institute is holding a five-day meeting continuing through Friday on the University of Nebraska campus.

Others speakers Tuesday were Hudson Hamm of the Northwestern University Traffic Institute, speaking on "Traffic Accident Investigations," and Barry Kinsey, University of Nebraska graduate student in criminology, speaking on "Some Special Problems of Ballistics Investigation."

"It is a matter of grave concern to us whenever outside influences, either directly or indirectly, disturb the American integration of these refugees whom our agency has sponsored and led them to feel that they need to return to Soviet countries, from which they fled, either to protect their own interests or the interests of family members in their country of origin."

Elliott appealed to government agencies to "tighten up" their administrative procedures in ascertaining whether those returning behind the Iron Curtain are doing so voluntarily, declaring:

"We believe that our governmental agencies are well advised to study their procedures with respect to persons who seek to return."

Describing the letter-writing as a "new emphasis" in the Soviet defection campaign, Elliott said:

"We hope your committee will be able to ascertain the extent to which these appeals constitute coercion or harassment by outside influence and to recommend effective ways in which such intervention may be countered."

Samolow

The committee is investigating the strange circumstances behind the defection on May 29, of Igor Samolow, 23, of Jersey City, N.J., and Ivan Beznabnow, 59, of Passaic, N.J.

Also being eyed by the subcommittee are the impending defections of Maxim Nidzi, 59, of Freehold Acres, N. J., his brother, Ilya, and Mrs. Daria Artemoff and her four children, all of Bristol, Pa.

Board Will Discontinue Prep Insurance Program

The Lincoln Board of Education Tuesday voted to discontinue payment of high school athletic insurance and urged families involved to determine the type and amount at their own expense.

The schools will continue to offer, at the parents expense, the limited athletic insurance policy approved by the Nebraska High School Activities Association. This costs \$2 for all sports except football, which is \$4.

The insurance program last year cost the schools \$2,935.65 and was about one-fourth of the interscholastic expense.

When the insurance program was put into effect it was expected that the admission price would cover this cost, but it has not been sufficient.

Dr. Paul Bancroft, a board member, said that while it is desirable

for athletes to have the insurance, some things should properly be provided by the family involved.

Dr. Steven Watkins, superintendent of schools, said that under previous plans, "misunderstanding and hard feelings have frequently developed" because school coverage was limited.

Many families now have complete coverage which would include aid for such accidents, Mrs. Roscoe Hill, board member, said.

The Lincoln schools will not require students participating in interscholastic athletics to be insured against accident.

AK-SAR-BEN ENTRIES

WEDNESDAY

First race, \$1,900 claiming, four and up, one mile and 1/16. Time—1:50 1/2.

Cameron Sta	106	Rice's Regard	113

* Denotes five-pound apprentice allowance.

Rudy York Named Manager At NP

NORTH PLATTE — Rudy York, former Detroit first baseman, Tuesday was named by the Cleveland Indians as manager of their North Platte entry in the Class D Nebraska State League. York is to report here Friday.

Sturdivant, Boone Receive \$100 Fines For Scuffling

CHICAGO — Pitcher Tom Sturdivant of the New York Yankees and first baseman Ray Boone of the Detroit Tigers were fined \$100 each by American League President Will Harridge for engaging in a scuffle in Sunday's game between the Yanks and Tigers in Detroit.

The fight took place in the third inning after Sturdivant had sent Boone sprawling in the dirt with a fast inside pitch. The ball hit Boone's bat and glanced off his shoulder. The incident followed back-to-back homers by Detroit's

Frank Bolling and Charley Maxwell.

Boone charged out to the mound where he was met by Sturdivant. Both players started swinging but, according to bystanders, the only punch landed was by Sturdivant, a right to Boone's cheek. Then followed the usual swinging match.

"I don't mind being dusted off if they throw at my legs," Boone said later, "but no man is going to throw at my head and get away with it."

Sturdivant denied trying to throw a beanball, insisting the ball got away from him. Both were ejected from the game.

Joseph G. Baker Dies
GRAND RAPIDS, Mich. — Joseph G. Baker, 41, Aquinas College athletic director, basketball and baseball coach, died Tuesday at St. Mary's Hospital after a brief illness.

Dulles Pledges U.S. Will Never Disregard Views Of Allies In Arms Talk

WASHINGTON (AP) — Secretary of State Dulles pledged Tuesday the United States will never disregard the views of its allies in order "to make speed with the Soviet Union" on an East-West disarmament agreement.

At a news conference, he promised to avoid any proposal for a European test disarmament zone until the European governments themselves have decided what to do about this problem.

Dulles' remarks were clearly aimed at reassuring Britain, France and other European nations who have complained about confidential talks disarmament specialist Harold Stassen has conducted in London with Soviet representatives.

These European complaints have indicated a fear that Stassen and

the Soviet delegate, Valerian Zorin, might work out a first-stage disarmament agreement involving Europe without full European participation.

"We are not going to throw into the discard the views of our allies merely in the interest of making progress on a bilateral basis with the Soviet Union," Dulles said.

"We attach first importance to our relations with our allies and we shall not sacrifice that relationship . . ."

Dulles arranged to talk with Stassen, who has returned for consultations, later to smooth out what he called the "procedural complications" which cropped up last week in the London disarmament negotiations.

Stassen will return to the British capital soon, Dulles said, to renew talks with Soviet representatives but will concentrate on other aspects of the disarmament problem.

The secretary reiterated his view that he believes the Arctic could be a better starting point for any

aerial inspection zone because there are fewer political problems in this region. The American government, he said, is ready to offer "a solid proposal" for such an Arctic zone, providing Norway, Denmark and Canada agree.

The view of these allied governments is necessary, he said, because any zone might cover areas over which they have sovereignty.

Answering reporters' questions, on other foreign policy problems, Dulles also:

1. Rejected Sen. Knowland's (R-Calif.) suggestion that Norway quit the North Atlantic Treaty Organization (NATO) in return for Russian withdrawal from Hungary. Knowland said his idea had been misinterpreted, that he had proposed such an agreement with the Russians only if Norway consented to it.

2. Called on Soviet leaders to agree on a cultural exchange program which would include 30-minute radio-TV programs over each other's networks monthly. Dulles said this proposal was made to

Stocks Reach New '57 High

NEW YORK (AP) — The stock market soared to another new high for 1957 Thursday in a continued rebound from Monday's sharp break on news of President Eisenhower's stomach upset.

Wall Street sources attributed the advance to a resurgence of confidence.

The posting of a new high for the year followed three weeks of mild reaction to the previous high established May 20.

Aside from the fact that the President was reported back at his desk in the White House the general run of business and economic news was good.

Key stocks advanced as much as 2 points or more. Selected issues were: General Motors, 48 1/2; Ford, 40 1/2; and the Dow Jones industrial average, 572.30, closing at a new high of 572.30, beating its previous year's high of 569.99. Standard Oil of New York, 47 1/2, and the S&P 500 index rose 3/4 to 47.94, exceeding its old high mark of 47.27 for that date.

Volume totaled 2,850,000 shares compared with Monday's 3,050,000 which was the year's highest.

Other market yardsticks also set new records. The Dow Jones industrial average was up 5.72 to 572.30, beating its previous year's high of 569.99. Standard Oil of New York, 47 1/2, and the S&P 500 index rose 3/4 to 47.94, exceeding its old high mark of 47.27 for that date.

Volume totaled 2,850,000 shares compared with Monday's 3,050,000 which was the year's highest.

Other market yardsticks also set new records. The Dow Jones industrial average was up 5.72 to 572.30, beating its previous year's high of 569.99. Standard Oil of New York, 47 1/2, and the S&P 500 index rose 3/4 to 47.94, exceeding its old high mark of 47.27 for that date.

Vic's Message Brings Death To Overtime Pay Bill

A message from Gov. Victor Anderson Tuesday turned the tide against a bill permitting overtime pay for state employees, and the measure was killed 24-15.

The bill, LB 396, had appeared on its way to final passage.

Only Monday, a kill motion was defeated 12-25 and the bill was advanced from select file, next to last stop on the way to final passage.

Tuesday afternoon, the bill was brought back to select file for a minor amendment. Opponents jumped in then with a new kill motion.

Lt. Gov. Dwight Burney held that under legislative rules, amendment on select file made the bill again subject to the kill motion which Sen. Arnold Ruhnke of Plymouth had made.

Although this had not been reported in previous debate, Ruhnke told his colleagues Gov. Anderson had recommended that the bill be killed.

VFW Names New State Officers

Frank Short, Lincoln, Named Commander Of State's VFW

Frank Short of Lincoln was elected commander of the Nebraska Department of the Veterans of Foreign Wars as the 1957 convention closed Tuesday in Lincoln.

Short, Lincoln typesetting firm owner and World War II combat infantryman and Anzio beachhead veteran, was senior vice commander during the past year.

During the session, the Nebraska VFW unanimously passed a resolution strongly protesting the handling of the William Girard case in Japan and urging that "cases of other Americans (service personnel) who have been tried and sentenced by foreign courts be investigated to determine whether justice has prevailed."

The resolution, which is to be forwarded to Secretary of Defense Wilson and the Nebraska congressional delegation, put the state group "on record as protesting the action of the U.S. government in turning William Girard over to the Japanese government for trial."

Congress Petitioned

Another portion of the resolution stated "we petition Congress to enact legislation that will forever preserve the national sovereignty rights of the individual members of the armed services of the United States to assure to such members preservation of their rights as American citizens."

Other officers elected were Dale Bowman of Plattsmouth, past junior vice commander as senior vice commander; O. C. Adcock of Scottsbluff, past judge advocate to junior vice commander; and Paul Harmon of Omaha as judge advocate.

Bob Lowe of Lincoln was elected quartermaster; the Rev. G. F. Duhrkop of Hildreth was named

Solon Seeks Unicam Probe Of University

Sen. Dwain Williams of Broken Bow requested the Legislature in a resolution introduced Tuesday to investigate the operations of the University of Nebraska.

The investigation would be by way of the Legislative Council. Action on the resolution will be taken later.

A recent opponent of adding \$1 million to the University budget, of the \$5.5 million increase requested, Sen. Williams said Monday a "lot of people out-state want to know what's going on." He wanted to get the information "before the public," he said.

'Entire Operation'

In his request for the study, the senator said he would like to know the "manner and scope" of the operations of the University. The committee would study the school "with respect to its entire operation" and report its findings to the next Legislature.

Sen. Williams said he thought the University was spending too much money for "things not necessary." He did not, however, intend the resolution as a criticism of the institution or Chancellor Clifford N. Hardin, the senator said.

"The chancellor is the best we've ever had," Sen. Williams said, adding he was "not in the least criticizing the present administration."

Things he would want itemized, Sen. Williams said, are the athletic fund and income from the state farms.

ter setting out the governor's views.

In short order, Gov. Anderson's letter reached the Legislature and was read. In it, the governor said the act would be "difficult to administer fairly," would jeopardize "uniform working conditions" among departments and "would increase the budget."

Adams Objects

Sen. John Adams Sr. of Omaha objected strongly to the governor's intervention but was overruled in efforts to block the reading of the letter.

Carpenter said he was told the governor had let it be known he would veto the bill if passed and said "I don't think that was well taken."

Carpenter also maintained the governor "didn't show proper respect for this body" by transmitting his views through individual opponents of the bill and not advising its supporters.

The bill was one of two killed on select file Tuesday.

Eliminated on a motion by Sen. Harold Stryker of Rising City was LB 604, which prescribed regulations governing the sale and labeling of so-called "economic poisons" such as weed killers, used by farmers. Stryker's kill motion carried 20-17.

Summary Readied In Case Against Police

OMAHA (AP) — Special Investigator Homer G. Wiltse said a summary of cases against five fired Omaha policemen should be completed by the end of the week.

Wiltse, Falls City attorney and former FBI agent, was hired by the police civil service commission to conduct an independent probe after the five appealed their dismissals by the police chief to the commission.
